

Cebi is a leading developer and manufacturer of components for automotive applications, household appliances, ventilation, electric vehicles and other industrial applications, employing more than 3000 people in 13 countries. Among its customers are the most prestigious automotive and household appliance manufacturers.

Aside from validating the products in its own laboratories, the company has set up 7 R&D centers and employs around 260 R&D experts, who are continuously dedicated to innovation and product enhancements.

Cebi Luxembourg S.A., the production company located in Steinsel, employs more than 600 people and is certified IATF 16949 as well as ISO 14001.

To support its ongoing development, Cebi Luxembourg S.A. is recruiting an:

Engineering Project Manager (m/f)

Your Mission:

- Lead cross functional teams to deliver electrical and mechanical engineering solutions for our clients;
- Accountable for all aspects of the project and for the consequences of actions taken within his/her area of responsibility;
- Work directly with the resource owners within the organization to define the deliverables from their respective resources and secure the necessary means to achieve objectives and budget estimates;
- Periodically review and assess status of all activities with a view to deliver upon agreed deadlines;
- Liaise with the customer all along the project to report on agreed upon milestones and adjust process as required.

Your Profile:

- Bachelor / Master's Degree electrical or mechanical in engineering;
- Ideally 2-3 years of relevant professional experience;
- Strong attention to detail and drive for results;
- Possess good technical ability and able to understand highly complex technical issues;
- Enthusiastic team player in a cross disciplinary and international environment;
- Strong customer focus;
- Fluency in German and French. Working knowledge of English is an asset.

We offer a stimulating work environment and a remuneration in line with your competencies.
