

PROJECT MANAGER

Function :

- Once the contract is signed, you secure the start phase of the project with all the people involved.
- You evaluate the scoper of the order and delivery conditions and manage the possible risks.
- You ensure the coordination of all parties involved until the project is completed.
- You are responsible for all technical, organizational and timing of the projects assigned to you.
- If possible, you secure the profitability of the project and support customer service afterwards.
- You develop and maintain close relationships with the customer or project planner and the internal departments.

Profile:

- You successfully completed a degree in civil engineering or technical training
- You have very good knowledge of industrial construction
- Very good language skills in German and English
- Willingness to travel (up to 50% of working hours)
- Your customer focus and organizational skills will make the difference between good and excellent performance.
- We are looking for a highly motivated, passionate person with exceptional communication skills.

Additional information :

- Start : ASAP.
- Contract : Permanent contract.
- Work Place: North of Grand Duchy of Luxembourg

To apply :

- Send your resume and application letter to our HR Department: recrutement@lease.lu. By submitting your application, you give your consent for the collection and processing of your personal data in order to fill a vacancy and/or to be registered in our recruitment pool.
- Your application will be treated with all our consideration
