

## SHIFT ENGINEER

CDI, Wiltz – North of Grand-Duchy of Luxembourg

### **Function :**

- After a practical training period, you will be part of our production team.
- **You will work on 4 shifts** and manage a team of around 20 operators (organization, reporting, training, audit...).
- You will be in charge of the follow-up of the production (including the prevention of defects and downtimes) with a view to increase yield and productivity.
- You will analyze and suggest improvements at various stages of the process for a better performance.
- You will be responsible for the respect of the safety, quality and environment procedures by your team.
- You will be required to work closely with the EHS, Quality, Continuous improvement, R&D and Engineering departments.
- A change of position after a few years is not excluded.

### **Profile :**

- You hold a Bachelor or Master Degree in (Electro-)Mechanics or in Chemistry).
- You have a minimum of 5 years of experience as production team leader.
- You are fluent in French and English.
- You have good IT skills (at least in PowerPoint, Excel and Word).
- You have good communication skills as well as team spirit.
- Experience of people management is a plus.
- A few years' experience in an industrial environment are welcome.

### **To apply :**

- Send your resume and application letter to our HR Department: [recrutement@lease.lu](mailto:recrutement@lease.lu).
- By submitting your application, you give your consent for the collection and processing of your personal data in order to fill a vacancy and/or to be registered in our recruitment pool.
- Your application will be treated with all our consideration
